Tips

Midterm Review

- Professional and **future** model work for the main contributors like professional athletes (职业选手)
- Better than some of the grad dissertations. Why? (Don't waste two years of young talents)

Modern Long Target

- No long target and career planning, so metrics is far from real job market for genius
- Long Target: please check Tianqi Chen. 8 years ago he was also a Chinese undergrad like u <https://tqchen.com/>

Modern Long Target vs Traditional Short Target

- Traditional Target:
卷身边的人 Like KNN model, then you fall in the trap of 馭民五術. 馭民五術 is not for young talents
- Modern Target:
The young talents like you should challenging genius around the world

Challenging the world? Yes we can

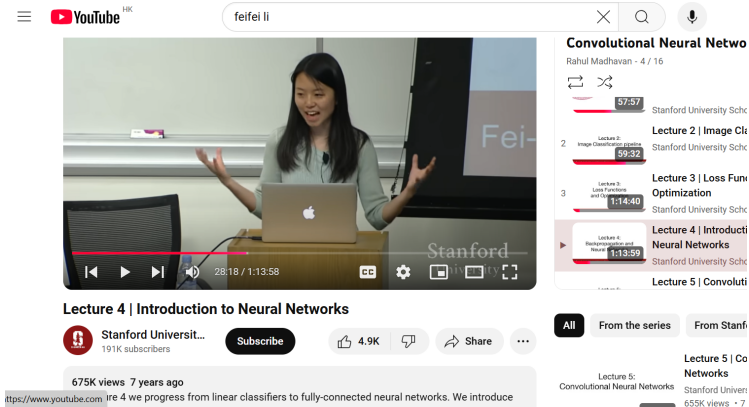

- Challenging genius around the world, crazy?
- Yes we can
- What is the driving force for our future in age of AI?
<https://human-intelligence.org/national-iq>

How to achieve Modern Long Target

- Top conference 顶会 (equal chance young grad students vs Sargent if u have innovations)
- Top journals 顶刊 (equal standard around world; ABS List)
- Top kaggles 顶赛

What the young talent should look like?

She was a first year Grad student same age, same IQ as you

Convolutional Neural Network
Rahul Madhavan - 4 / 16

https://www.youtube.com/watch?v=... we progress from linear classifiers to fully-connected neural networks. We introduce

Why modern framework?

- It is a modern sport only for the young
- Opportunities **only** for young talents to show themselves (Why?)
- Hard for free riders (Even your future mentors can not steal your ideas)

Tips

Importance of Real Presentation

- Next year summer camp for the grad schools & grad research
- Next next next year job interviews
- Next $\times$ N year to be a Quant
- It is competitive game only for young talents

Tips

Tips

- These skills just need training, no training no improvement
- Yes, it is what we need from you for the grad camp, grad study, work.
- Do not discouraged if your modeling skill is lagged behind, others just start earlier since they have better info. Now or Never.
