Ridge	111k	110k	285k	68.9
Elastic Net	110k	109k	285k	68.9

In = In-sample MAE, **OOS** = Out-of-sample MAE, **CV** = Cross-validation MAE, **KS** = Kaggle Score (from combined price and rent predictions per model). All values in thousands (k).

Training Set: 103,871 (Price) + 98,899 (Rent) = 202,770 (Total). Outliers handled via clipping (winsorizing), not row removal.
